

## Introducing GARRY SMITH B.BUS (ACC/ECO) CHARTERED ACCOUNTANT

Garry Smith was raised and educated in Warrnambool, gaining his Bachelor of Business from what was then the city's Institute of Advanced Education (now Deakin University) in 1988.

Further study in Melbourne coincided with employment at KPMG Peat Marwick in Melbourne and in 1990 he graduated as a Chartered Accountant.

In 1995, Garry returned to his hometown to concentrate on developing a specialised accounting service and corresponding software systems for the region's dairy farmers.

He has spent more than 20 years working with the region's most progressive farmers to streamline the management of their farming businesses and financial practices. This commitment is enhanced by Coffey Hunt's long-standing affiliation with the region's primary producers, offering clients a focused and progressive partner to help manage their business and management needs.

Garry Smith has spent more than 20 years working with the region's most progressive farmers to streamline the management of their farming businesses and financial practices.

# Specialised Farm Accounting & Management Advice

*Coffey Hunt Chartered  
Accountants is Western Victoria's  
leading farm-focused and rural  
management accounting practice.*

Coffey Hunt has a long and proud history of working with the region's most progressive and innovative farmers and delivering support and advice that has helped make South West Victoria the leading dairy region in Australia.

Partner Garry Smith leads a team of on-farm specialists proficient in a selection of practices and software systems specially designed to meet the needs of the South West's progressive dairy industry.

## Services available include:

- Taxation assistance and accounting compliance, including quarterly GST and PAYG preparation
- Farm performance analysis
- Business planning and farm budgeting
- Annual benchmarking
- Finance application assistance
- Access to Government-funded on-farm training programs
- Advice and guidance on a wide range of Government entitlements, including family-assistance, diesel fuel rebates and specialised primary production assistance programs
- Employment assistance
- Valuable and extensive industry networks, covering lawyers through to machinery dealers, contractors and training providers
- Expert advice and assistance with sharefarm and/or labour arrangements, stock or land leasing and disputes

# Tailored Software Solutions

Coffey Hunt also offers access to and training in specially-developed software packages, created to meet the specific need of the region's dairy industry.

## Dairy Data

A herd-health management program for seasonal-calving dairy herds. Provides an easy way to record all key events in an animal's life span, including:

- Cow details
- Mating details
- Calving details
- Herd test information

Compatible with industry-standard format files, Dairy Data allows for downloading of information provided by herd improvement centres

## Farm Cash

Farm Cash is a Cashbook accounting package specifically written for dairy farmers to assist with farm management.

It truly helps farmers manage their business.

Its unique appeal is its simplicity. The click of a button achieves a number of detailed management reports tailored to the needs of the individual farmer.

At the click of a button, Farm Cash can provide:

- Preparation and reporting of quarterly BAS
- Monthly cash flow analysis
- General ledger
- Supplier transaction details
- Printing of cheques
